

## AL.2613 LED PROFILE

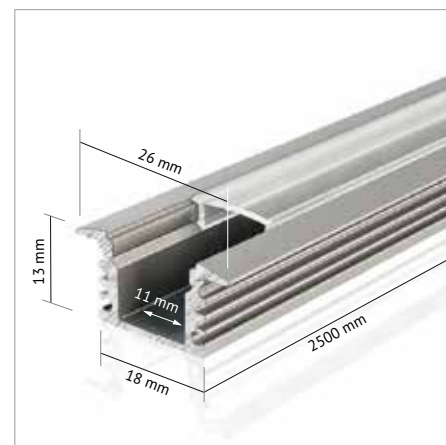

The low-profile AL.2613 is mounted within a shallow recess at a depth of 12mm and is used to create individual or continuous lines of light. The extruded profile features an 11mm wide area in which to position an LED strip.

The diffuser is high impact resistant and delivers over 80% light transmission. A range of colour temperature LED strips is available or the profile can be used with a preferred LED option. Asta Linear profiles can be purchased in linear lengths or supplied in fully constructed units with LEDs installed.

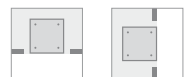

## Key Features
