

AL.4970 LED PROFILE

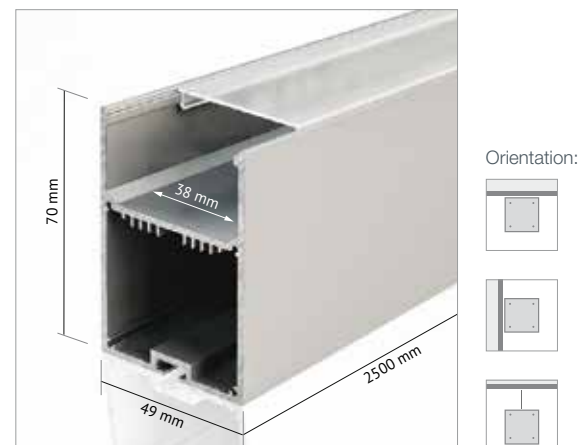

With a 38mm wide area in which to position an LED strip, AL.4970 accommodates strips with multiple rows of LEDs for increased brightness. Featuring slim and deep proportions, AL.4970 is ideal for suspension above a reception desk or can be used to create individual or continuous lines of light.

The frosted diffuser is high impact resistant and delivers over 80% light transmission. A range of colour temperature LED strips is available or the profile can be used with a preferred LED option. Asta Linear profiles can be purchased in linear lengths or supplied in fully constructed units with LEDs installed.
