

AL.4932 LED PROFILE

With a 38mm wide area in which to position an LED strip, AL.4932 accommodates strips with multiple rows of LEDs for increased brightness. Surface mounted or suspended, the profile is used to create individual or continuous lines of light.

The frosted diffuser is high impact resistant and delivers over 80% light transmission. A range of colour temperature LED strips is available or the profile can be used with a preferred LED option. Asta Linear profiles can be purchased in linear lengths or supplied in fully constructed units with LEDs installed.
