

## AL.1813 LED PROFILE

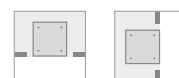

For mounting within a shallow recess with a depth of 13mm, AL.1813 is a low-profile unit used to create individual or continuous lines of light. The extruded profile features an 11mm wide area in which to position an LED strip. A range of colour temperature LED strips is available or the profile can be used with a preferred LED option. Asta Linear profiles can be purchased in linear lengths or supplied in fully constructed units with LEDs installed.
